

SO AS TO CONTINUE TO LIVE PROUDLY AN ANARCHIST IN ITALY HAS DECIDED TO DIE PROUDLY

using his body as a weapon to attack the judicial
conspiracy to distort his person, his struggle and
the very essence of anarchism in order to bury
him alive under the anti-mafia law 41bis

with Alfredo Cospito end 41 bis now!

“There are two types of solidarity. A passive one that all too often serves only to wash away conscience for someone’s own inactivity and that does not bridge the gaps between words and deeds.

And then the active, concrete, real solidarity that some call revolutionary, created in silence and anonymity, where only destructive actions speak even through the words that follow. Needless to say which one I prefer.

In final analysis, the best solidarity that i could receive is to see the planning of this new anarchy, in all of its forms, continue to move forward, insensible to the strokes of repression. I will not deny it, in every action that someone salutes us as anarchist prisoners, both in Italy and the rest of the world, my heart fills with joy.

This is my life today. The war continues, never give up, never give in.” Alfredo Cospito
