

GATHERING IN SOLIDARITY WITH THE ANARCHISTS ACCUSED IN SCRIPTA SCELERA OPERATION

August 8th, 2023. Following a request for ten arrests in prison, Scripta Scelera operation leads to nine precautionary measures against as many anarchists accused for the publication and distribution of the internationalist anarchist fortnightly 'Bezmotivny'. A proceeding with which the State intended to 'normalise' the precautionary measures for charges concerning revolutionary publications. Scripta Scelera represents another 'chapter' in the war policies of the Italian state, in continuity among other things with recent repressive manoeuvres aimed at removing political practicability from ever wider social sectors.

PRESENCE IN FRONT
OF THE COURT IN
PIAZZA DE GASPERI**

April 1st, 2025. After just over a year, the trial against four accused comrades is coming to an end. Public prosecutor Manotti of the DDAA ("Anti-Mafia and Anti-Terrorism District Directorate") of Genoa will deliver his indictment, with the requests for sentencing. Regardless of the prosecutor's inquisitorial hypotheses on alleged instigatory and terrorist capabilities, the reasons that the State intends to strike are the ones of those who opposed the war also by denouncing the Italian industries involved in the production of armaments, as well as those who supported the 2022-'23 mobilisation against 41 bis prison regime and life imprisonment without the possibility of parole developed with Alfredo Cospito's hunger strike.
